LIND

DK

MADE IN DENMARK

All LIND DNA recycled leather designs are handcrafted in Denmark, ensuring unprecedented quality in every step of the production process.

SHAPE / SIZE

With our very special inhouse production set-up, we can meet your wishes as for customization of size and shape. We can fit any setting to your tables and surroundings.

SUSTAINABLE DESIGN

Sustainability is at the heart of the LIND DNA strategy. Our recycled leather is made from 80% recycled leather and 20% natural rubber.

FLEXIBILITY & SPEED DELIVERY

Due to local production, delivery time is short for both customized and standard orders, which ensures the highest degree of flexibility.

CUSTOMIZATION

Our inhouse design and graphic team combined with our extensive range of colours provide great flexibility in supporting special customization ideas from our customers.

EASY TO CLEAN

The unique combination of recycled leather and natural rubber gives a strong and durable material, which is very easy to maintain, and which will keep its look and feel through continued use.

RECYCLED LEATHER

The bedrock of most of our designs is OEKO-TEX® certified, recycled leather. Sourced from surplus production from the furniture and fashion industry, the vegetable-tanned core leather is first granulated, and then pressed together with natural rubber from trees. The result is a recycled leather quality, consisting of 80% core leather and 20% natural rubber – a material that is not only incredibly durable and water repellent but also easy to clean. Lastly, the recycled leather is dyed with water-based colour and embossed with beautiful surface textures and patterns.

SERENE - THE AUTHENTIC

Leather SERENE is a very durable type of leather and differs from other LIND DNA qualities by being softer and more flexible, without compromising on strength and durability. The combination of these qualities makes SERENE stand out as our most authentic, high quality, leather type, which is very easy to clean due to a durable sealing coating. The material is 1,2 mm thick and consists of 80% core leather and 20% natural rubber.

NUPO - THE SOFT

NUPO is one of our most popular structures. It has an exclusive, suede-like surface, with a soft structure. NUPO is elegant and timeless - the perfect choice for almost any interior style. The material is 1,6 mm thick and consists of 80% core leather and 20% natural rubber.

HIPPO - THE 2-TONED

HIPPO is developed with inspiration from the world of animals and its characteristic structure with different depths creates a beautiful play between bright and darker shades across the surface. The material is

1,6 mm thick and consists of 80% core leather and 20% natural rubber.

REVERSIBLE - 2 IN 1

With a unique technique, we have created a two-in-one Reversible leather type with carefully combined colours and textures. The combinations are fixed and are perfect for table mats and glass mats in any shape and size, as well as for inlays, and menus.

Available in all standard shapes and sizes. Mat thickness 2mm.

BULL - THE STRONGEST

BULL is one of LIND DNA's strongest structures. The slightly thicker structure makes the material incredibly durable and easy to maintain. With a small, fibrous pattern, the surface has a classic leathery look. BULL is soft, durable and conveys a slightly polished look. The material is 2 mm thick and consists of 80% core leather and 20% natural rubber.

BUFFALO - THE RUSTIC

With its large and natural looking pattern, BUFFALO is an unspoiled surface, that brings a perfect foundation of rustic style to your table. Alternatively, it can beautifully balance out a more sophisticated table setting in a grounded and understated way. The material is 2 mm thick and consists of 80% core leather and 20% natural rubber.

LACE - THE EXTRAVAGANT

LACE is a half-glossy, half-matte, extravagant surface inspired by premium lace fabrics - the recognizable and playful structure will make a beautiful statement in any table setting. The material is 1,6 mm thick and consists of 80% core leather and 20% natural rubber.

CUSTOMIZATION AND DESIGN

Lind DNA offers a very large and versatile collection of products for the hospitality and project market - beautiful and functional at the same time. In addition to our standard collection, we offer many solutions within customization.

We have an in-house design & graphic department to support customers with special ideas and wishes. The fact that most of our collection is produced at our own production facilities in Aarhus, Denmark, secures a high level of quality and flexibility. Whichever product

you are looking for, we are here to support and inspire you.

We offer various solutions within customization, which make the final products exclusive and unique, such as:

- Special sizes of Mats, Coasters, and Inlays for trays.
- Customized colors in recycled leather (min. qty = 1000 large Table Mats)

- Menu folders with embossment and/or embellishment (like stitchings), different opening & closing mechanisms
- · Custom made trays.

All our surface textures and colours can be used for any shape or size of mat, and we can therefore customize a solution to suit any desired style

YOU NAME IT, WE MAKE IT.

Our goal is to help you make a statement in any kind of setting and to create truly unique and memorable experiences for your guests.

CLEANING PRODUCTS

Care is key to keeping your LIND DNA leather products in tip top shape, which is why we have developed two unique cleaning products: DEEP CLEANING SOAP and CLEAN&CARE.

DEEP CLEANING SOAP

For a thorough in-depth cleaning of Lind DNA Table Mats and Glass Mats, we have developed our DEEP CLEANING SOAP, which is a liquid soap, especially made for cleaning of products in recycled leather. Simply dilute the soap into a bit of water and wipe the mats over gently with a sponge, allowing the soap to foam up. Afterwards remove the foam with a damp cloth. For heavy cleaning, leave the foam on the product for a few minutes, and remove with a damp cloth. The DEEP CLEANING SOAP ensures that the mats stay perfect year after year.

CLEAN&CARE

CLEAN&CARE is our easy, universal cleaning spray for all leather products, LIND CURVE- and SILHOUETTE candleholders and vases. Just spray and wipe.

The Curve shape, easily recognizable as the traditional LIND DNA table mat, is available in three standard sizes: Small, Medium, and Large. Other sizes available on request.

CUT&SERVE

CUT&SERVE

Our CUT&SERVE collection of cutting boards may have a soft, wooden appearance, but is actually made from compact laminate - a very strong and durable material consisting of multiple kraft paper layers pressed together with resin from trees. Mixing high aesthetics and functionality, the boards can be used as decorative serving boards for tapas or snacks.

The CUT&SERVE boards are dishwasher proof, almost impervious to wear and tear and heat-resistant up to 180 Celsius, making them applicable as trivets for hot pots and pans.

WORK MAT & MOUSE MAT

The WORK MAT and MOUSE MAT are ideal for the conference center, the office and preserving front desk at the hotel lobby - both types of mats are made from 3 mm recycled leather and tested to ensure ideal friction when using a computer mouse.

The mats are robust and durable in order to be used continuously. It is possible to choose with or without handstitched edges.
